

## QUICK EXERCISE – HTML Form

Please write your HTML code using Sublime text editor and submit your file through Google Classroom.  
Renamed your file as followed : name\_studentID

Construct HTML codes based on the following statement:

- 1) Create HTML codes that request certain information from the visitors. The script should be able to:
  - Collect name, age, gender, address, campus, mentor and visitor picture.
  - Information on gender can be inputted using either radio button or drop down list.
  - Used multiline for address and drop down/radio button for campus and mentor.
  - Data for campus are:
    - Kelantan, Johor, Shah Alam, Sarawak and Kedah.
  - Data for mentor are:
    - PM Ts Dr Ghazali Osman, PM Dr Mohd Nasir Ismail, Dr Mohamad Rahimi Mohd Rosman, Puan Nurshaliza Sapiai, Puan Siti Aswani Mohd Ghazali, Puan Zaila Idris, Puan Khadijah Abdul Rahman
  - The form should be submitted using a POST method and link to <https://fim.uitm.edu.my/>.
